

GenOMICS: Today and Tomorrow's Medicine

BC CLINICAL GENOMICS NETWORK ANNUAL CONFERENCE

30TH APRIL 2010

Fairmont Hotel Vancouver
900 West Georgia Street
Vancouver, British Columbia
Vancouver

BC Clinical Genomics Network (BCCGN) annual conference aims to inform clinicians about genomic technology and research. Keynote speaker is renowned author James Reston Jr. who will speak about the challenges he faced when his daughter was born apparently healthy but later developed a rare, undiagnosed disease. This year's conference will focus on how genomics is applied in different therapy areas.

PROGRAM THEMES

- MetagenOMICS
- NeurOMICS
- PharmacogenOMICS
- NutrigenOMICS
- Parent Perspectives on Genetic Diagnosis
- Advances in High throughput Sequencing
- Integrating Genomics into Personal Care
- Direct to Consumer Testing
